EIRS

Why Should You Manage Non-Insurable Risks ?

In an ever-evolving global business landscape, mastering non-insurable risks is not just a corporate necessity but a strategic imperative.

65%

Business Risk falling under Non-Insurable Category

22%

Revenue Impact due to lack of mitigation for Non-Insurable Risks

41%

Supply Chain Disruption due to lack of management of Operational Risks

\$10.5 Trillion

Annual cybercrime cost projected 2025

Resources

- (Allianz Risk Barometer, 2025)

What Sets Us Apart ?

Industry-specific Enterprise Risk Management (ERM) framework which provides tailored solutions for the unique challenges every business encounters.

ERM Framework

Risk Technology

Utilizes cutting-edge Risk Technology for efficient identification, assessment, and mitigation of non-insurable risks.

Risk Policies

Implements strategic Risk Policies designed to address non-insurable risk categories and ensure compliance.

Risk Appetite

Defines and communicates a clear Risk Appetite, guiding decision-making for non-insurable risk scenarios.

Risk Strategy

Develops a tailored Risk Strategy aligned with organizational objectives, addressing non-insurable risks.

Risk Profile

Creates a detailed Risk Profile to understand the organization's exposure to various non-insurable risks.

Monitoring & Reporting

Establishes continuous Monitoring and Reporting mechanisms for real-time visibility into non-insurable risks.

Modelling & Analysis

Applies sophisticated Modelling and Analysis techniques for in-depth assessment and mitigation planning related to non-insurable risks.
